

UNICIRCUIT

Engineering Services LLP

Your Trusted Digital Transformation Partner

ABOUT US

Who We Are

We are delighted to present Unicircuit Engineering Services LLP, a technology-focused System Integration company committed to providing innovative solutions in the ever-evolving realm of technology. UNICIRCUIT is your trusted Digital Transformation Partner, and with the support of our team of global experts, we provide evolving solutions that empower the industry to Design, Engineer, Construct, Operate and Maintain via state-of-the-art technology.

AI-Powered

Intelligent solutions for surveillance, safety & asset management

Innovation-Driven

Cutting-edge technology for digital transformation

Global Expertise

World-class engineers delivering turnkey solutions

End-to-End

Design, engineer, construct, operate & maintain

Comprehensive Solution Portfolio

Smart Building
Ecosystem

3 Solutions

Total Solutions
Delivered

21+

Smart Building Ecosystem

Intelligent building management powered by AI and IoT for modern facilities.

3 SOLUTIONS

AI-Powered People Counting

Real-time occupancy tracking and crowd analytics using advanced AI algorithms for optimized space utilization.

Smart Building Automation

Centralized control of HVAC, lighting, access control and energy systems through intelligent IoT platforms.

Smart Building Security

Integrated security solutions combining surveillance, access management and threat detection in a unified platform.

9 Integrated Security Solutions

AI-Powered Surveillance

AI-Powered CCTV

Smart Site Safety

Video Analytics

ARC PPE Detection

Perimeter Intrusion
(PIDS)

Thermal Hot Spot

Entrance Automation

Integrated Monitoring

5 Solutions for Operational Excellence

Asset Inventory Management

End-to-end tracking and management of industrial assets with real-time visibility and analytics.

Hands-Free Inventory Inspection

Wearable and AI-driven inspection tools enabling touchless, accurate inventory audits.

Industrial Temperature Monitoring

Continuous thermal monitoring of critical equipment and processes for predictive maintenance.

Smart Speed Monitoring

Intelligent speed detection and enforcement for industrial zones, campuses and roadways.

Vehicle Inspection Management

Automated vehicle inspection workflows with AI-powered defect detection and compliance tracking.

Connecting Your Digital World

Expert Manpower & Turnkey Delivery

Network Infrastructure

Design, deployment and management of robust wired and wireless networks for enterprise and industrial environments.

Technical Manpower Supply

Skilled technicians, engineers and specialists deployed across projects with full management and compliance.

Communication Systems

Unified communication platforms including VoIP, intercoms, PA systems and integrated collaboration tools.

ELV Turnkey Projects

Complete Extra-Low Voltage project delivery from design through commissioning — structured cabling, security, AV and automation.

Proven Track Record

Intelligent Campus Surveillance

AI-driven campus-wide security deployment with real-time threat detection and centralized monitoring.

Vehicle Inspection Management

Automated vehicle compliance checks with AI-powered defect recognition and digital reporting.

Smart Speed Monitoring

Intelligent speed enforcement system for industrial zones with automated alerts and analytics.

Revolutionizing Inventory Management

Hands-free AI-powered inventory inspection transforming warehouse and storage operations.

PPE Detection & Workplace Safety

Real-time PPE compliance monitoring ensuring worker safety across industrial sites.

Industrial Traffic & Vehicle Management

Complete traffic control and vehicle management system for large industrial campuses.
